

TIME TO APPLY!

The Early Career Research Prize in Vaccinology R&D is awarded by IUIS and Vaccines Europe. The objective is to promote and foster a younger generation of scientists in the early stages of their career.

Early Career Research Prize in Vaccinology R&D – 10 000 €

IUIS *Immunology
without
Borders*

International Union of Immunological Societies

Vaccines Europe
An industry for healthy lives

This prize of Excellence set up by **IUIS** with the contribution of **Vaccines Europe** aims to reward significant achievements in **Vaccines R&D**:

Discovery of new vaccine antigens, new vaccines design, understanding the basics of the immune response, new technologies to improve the future of vaccines or vaccination and that are supported by proof-of-concept data (preclinical and clinical).

Applications due 30th June 2018

Who can apply?

- Senior post docs
