

World Primary Immunodeficiency Week!

April 22nd – 29th, 2016

Dear Friends,

I hope this note finds you well and enjoying the beginning of the New Year 2016! We are excited to announce our plans to celebrate World PI Week with a Global Balloon Launch!

Will you join us?

Last year...

The Jeffrey Modell Foundation organized a **Global Balloons & Bubbles Launch** to kick off World PI Week, in an effort to raise awareness, improve diagnosis, and advocate for access to treatment of PI worldwide. We designed special balloons for World PI Week and sent out thousands of them to be set free by all of you.

Let's do it Again!

The global initiative was a great success last year and 110 locations worldwide participated. This year we would like to do it again.... **Bigger, Better, Bolder**, with an even stronger reach. Together, let us once again affirm our dedication, passion, and commitment to **Test. Diagnose. Treat.**

Will you join us?

We plan to organize a global event, and hope that we can count on our ever expanding Network to join forces with us and maximize our impact. If you would like to join us, please let us know. We will send you a box of balloons and you can organize a fun event for patients, families, friends, physicians and nurses in your area.

We need your responses now so we can start planning!

Email us at: kmarvel@jmfworld.org and let us know if you will join us!!!

We hope you will say YES!

With warmest regards,

Vicki and Kathryn
