

€15000
award

LFB Research Grant in Immunology 2023

This year, the LFB Immunology research grant in the immunodeficiency field is

DEDICATED TO NURSES

The amount of each award is €15000. No product or placebo are part of the award and cannot be requested as a replacement for the award.

As part of **EQUILYBRIUM**

*Your MedEd portal for
immune-mediated disorders management*

www.equilybrium.com

For 2023, LFB's immunology research grant aims to support the work of nurses in the field of immunodeficiency.

Proposals are sought for research that aims to improve the management and/or quality of life of patients treated with intravenous immunoglobulin.

Eligibility Criteria

Nurses, from predefined countries can apply with a project that fulfills the aim of the programme.

- Increase the awareness of Immunodeficiencies in terms of diagnosis or patient management.
 - > Improve the overall quality of life of patients
 - > Improve the quality of care
 - > Optimize patient follow up
 - In patients treated with Intravenous Immunoglobulins
 - Within the licensed indications.
